

SERIES 400 – STUDENTS

Student Rights and Responsibilities – 440

Student Pictures on the School District’s Web-site, Facebook, School Newsletters and the County Line (443.6)

The Norwalk-Ontario-Wilton School District is always looking to celebrate student learning. There are times that the school district will post student photographs on school produced media sites. These sites are mainly, but not limited to:

- School District Web-site.
- Elementary and Jr. & Sr. High Facebook Pages.
- School Newsletters.

As of the adoption date of this policy, anytime the school district posts a student’s picture on school produced media sites, the district will only use the student’s first name under the picture as a caption with prior parental permission.

If the School District distributes a photo to the County Line for publication in the paper or the County Line’s web-site, the student’s full name will be used with the photograph with prior parental permission.
