

SERIES 700 – SUPPORT SERVICES

Transportation Services Management (750)

Co-curricular Transportation (751.2)

The Board of Education delegates the authority to the District Administrator to authorize all transportation in the scheduling of field trips and extra-curricular activities. Assignment of these field trips will be done in accordance with procedures established by the District Administrator.

Students must ride district transportation to any sporting event unless prior arrangements have been made by the athlete with the Head Coach of the Sport. Students who do not ride district transportation home after an event must have written permission by the child's parent and it is given to the Head Coach of the sport. Students may only be allowed to ride home with their parents following a school sponsored activity.

The Norwalk-Ontario-Wilton Board of Education also authorizes the District Administrator to schedule all summer school field trips.
